IMPORTANT REMINDERS WHEN PROCESSING REGISTRATIONS WITH DISTINCTIVE VESSEL REGISTRATION STICKERS

- The clerk should enter the decal control number listed on the decal they have in office, as they normally would.
- The decals (decal numbers) will be printed by the Department of Corrections along with the AL number on the stickers; therefore, clerks should NOT give the customer a decal at the time of purchase. Decals should be attached to the registration certificate and sent to our office at the end of the month to avoid duplicates.
- Registration information will be relayed nightly to the Department of Corrections, and the distinctive vessel registration stickers will be mailed to the customer upon processing.

IMPORTANT REMINDERS WHEN PROCESSING REGISTRATIONS WITH DISTINCTIVE VESSEL REGISTRATION STICKERS

- Fees for distinctive vessel registration stickers will be included (separately) on the reports, and should be collected by the clerk at the point of sale; however, those fees will be sent to the State of Alabama Comptroller's Office for distribution of funds. Please do not include those fees with the monthly sales reports that are sent to our office.
- Instructions for the reporting and distribution of funds were sent from the State Comptroller's Office in December.
